TO WHOM IT MAY CONCERN

Kindly find below the opinion and approximate estimate:

			
Medical Opinion and Estimate			
<b>Name</b>	Mr Philip England		
<b>Age</b>	----		
<b>Country</b>	UK		
<b>Consultant</b>	Dr Mazda Turel- South Bombay Unit		
<b>Specialty</b>	Sr. Consultant- Neuro & Spine Surgeon		
<b>Treatment Plan</b>	Based on the current medical report & information received it seems that patient may require Detailed Evaluation and examination here at the hospital to decide what the best solution would be. It's too premature to see if surgery would be the solution or she may require aggressive rehabilitation and physiotherapy. <b>We shall evaluate the patient here to confirm the final plan of treatment.</b>		
<b>Stay</b>	Evaluation & Medical Management: 14 days stay in hospital depends on patient recovery (if there is no other Medical Problem).  Kindly note that the below mentioned cost shall vary in case the patient is suffering from any other disease (affecting the suitability for the surgery/procedure) or in case the patient needs to undergo any other treatment prior to surgery/procedure to render being fit for the surgery/procedure. Final cost of treatment will be given post evaluation and clinical examination at our center.		
Approx. Cost	Procedure	Room Category	Cost in USD
	Evaluation & Medical Management	Single	6800 - 7600 USD approx.
<b>Note: This is an approximate cost for the hospitalization and treatment it may can get very, final line of treatment will be decided based on the examination &amp; based on evaluation report, how patient responds to physiotherapy and rehab.**</b>			
<b>Note: The USD rates are taken @ INR 73 per dollar which is the prevailing rate. The patient shall pay the prevailing USD rate V/S INR while getting admitted in the hospital owing to dollar rupee fluctuations.</b>			
<b>Note: As per current government directive one cannot make cash payment more than INR 200,000 (two lacs) or dollar equivalent during the admission period. It is advisable to carry a credit/Debit cards or wire transfer the money before you travel.</b>			

**Note: If the dollar exchange rate further increases before the arrival of the patient, the patient needs to bear the exchange difference.**

**The cost estimate will include the following :**

- Hospital stay for the period mentioned above
- Consumables for the period of hospital stay mentioned above
- Investigations for the period of hospital stay mentioned above
- Standard diet / meals
- Pharmacy / Medicines for the hospital stay
- Doctor visits and consultations for the period of hospital stay mentioned above
- City airport pickup-drop in AC car
- Wi-Fi to patient or attendant

**Please note we provide complimentary basic health check-up for 01 attendant.**

**Exclusions**

- Hospital stay after the said period
- Surgical Procedure (if required)\*\*
- **COVID related investigations and associated treatment (will be charge ON ACTUAL)**
- Cross consultations, if any
- ICU stay if required
- Attendant Food
- CT/MRI and Complex lab investigations if required
- Comorbidities charges i.e. Hypertension, diabetes etc. would be on actual basis
- Post discharge hospital stay

**Important Note**

- The above tariff is as per the existing rate and if there is any fluctuation in exchange rate, the tariff will vary accordingly.
- Due to any complications, if the patients stay is extended than the package days, then room rent, medicines, investigations and consultations will be charged extra.
- Only one attendant will be allowed to stay in the patient's room.
- The above mentioned package tariffs may vary depending on the clinical condition associated medical problems of the patient & post-surgical complication.
- If any complication occurs and the patient is moved to an ICU, charges will vary depending on the medical condition.

**The cost of treatment will not include the following :**

- The above tariff is as per the existing rate and if there is any fluctuation in exchange rate, the tariff will vary accordingly
- Due to any complications, if the patients stay is extended than the package days, then room rent, medicines, investigations and consultations will be charged extra

- Only one attendant will be allowed to stay in the patient's room
- The above mentioned package tariffs may vary depending on the clinical condition, associated medical problems of the patient & post-surgical complication
- If any complication occurs and the patient is moved to an ICU, charges will vary depending on the medical condition.
- If patient is moved to an ICU then the room has to be vacated by the attendant/relative. The attendant/relative will have to stay in lounge/waiting room till the time patient is in ICU.
- 100% advance payment of surgery/procedure cost is a pre-requisite for all the patients. This payment should reflect in Wockhardt Hospitals account before the patient undergoes such agreed procedure/surgery in Wockhardt Hospitals at a mutually decided time.
- The above quote is valid for 1 month from the date of issue.

**The cost of treatment will not include the following :**

- International flight tickets VISA charges, cost of travel and tourism in the region, etc.
- If stay exceeds more than above mentioned days then that would be charged on an actual
- These estimates are purely indication of cost to be incurred and shall provide a rough idea about the prospective expenditures. These estimates are based on the instant and preliminary information available, actual cost of treatment may vary substantially in view of the patient's condition, actual procedures/surgery carried out, investigation done, medicines used, Implants used, services of visiting consultant availed, no of days stay in ICU/ward etc.
